

Software Engineering Services

Transforming Ideas into Scalable Digital Solutions, From Concept to Deployment

About Nerve Cells AI

Nerve Cells AI Pvt. Ltd. is a technology company specialising in Embedded Systems Engineering, RF Communication Technologies, and Electronic Product Development. Founded in January 2023, we combine deep engineering expertise with product-focused thinking to design and develop advanced electronics systems for global industries.

Our team works on custom hardware design, embedded firmware, RF communication systems, and intelligent devices, enabling organisations to transform innovative ideas into reliable electronic products.

Our Mission & Vision

Our Mission

To create impactful, secure, future-ready technologies that empower industries and improve lives.

Our Vision

To empower people through intelligent technology and shape a future without limits.

Our Core Values

At Nerve Cells AI, our culture is driven by innovation, transparency, and measurable impact.

Innovation & Continuous Learning

We constantly explore new technologies and engineering approaches to deliver impactful solutions.

Collaboration with Transparency

We believe in strong partnerships with clients whilst maintaining honesty and transparency in every engagement.

Social Impact

Technology should contribute positively to society and create sustainable value.

Results-Oriented Execution

Our focus is on delivering measurable results and real engineering outcomes.

Passion for Technology

Our team is driven by a deep passion for electronics engineering and advanced technologies.

Our Software Capabilities

End-to-End Software Development Expertise

1 Web Applications

2 Mobile Applications

3 Enterprise Software

4 UI/UX Design

5 Backend & APIs

6 Cloud & Infrastructure

7 Product Engineering

8 Maintenance & Support

Technology Stack

Platforms & Tools We Work With

Platform

- Microsoft Dynamics CRM
- Power BI (Data Analytics & Visualization)
- WordPress (CMS Solutions)

Web Technologies

- C# & ASP.NET Core
- Laravel (PHP Framework)
- Angular & React (Frontend Development)

Mobile Technologies

- Android & iOS
- Xamarin
- React Native

DevOps & Cloud

- Microsoft Azure
- AWS (Amazon Web Services)
- Continuous Integration & Continuous Delivery (CI/CD)

Web & Enterprise Application Development

Scalable & Secure Digital Platforms

High-performance web
applications

Enterprise-grade software solutions

Custom systems for complex
workflows

Focus on scalability, security, and
long-term growth

Mobile Application Development

User-Centric Mobile Experiences

Native Android & iOS apps

Cross-platform solutions (React Native, Xamarin)

Seamless, reliable, and high-performance apps

Designed for intuitive user experience

UI/UX Design Services

Design That Drives Engagement

Product Prototyping

Usability Testing & Validation

Service Design

UX Consulting

End-to-End Engineering, Cloud & Product Development

Backend & API Development

- Secure backend systems
- API development & integrations
- Smooth data flow across systems
- High reliability and performance

Cloud & Infrastructure Services

- Cloud Readiness Assessment
- Cloud-Enabled Enterprise Applications
- Cloud Consulting Services
- CloudOps (Monitoring, Optimization & Management)

Product Engineering

- End-to-end product development
- Concept validation to deployment
- Agile development approach
- Scalable and production-ready systems

Custom Application Development

- Next-Gen Application Development & Management
- Mobile App Development
- Digital Product Strategy
- Application Modernization

Intelligent Automation & Lifecycle Support

Automate processes, reduce manual effort, improve efficiency.

Reliable Ongoing Support

Workflow Automation & AI

- Document Intelligence Solutions
- Workflow Dashboards
- Digital Process Automation
- AI Cognitive Services

Maintenance & Support

- Continuous monitoring & updates
- Performance optimization
- Security enhancements
- Long-term system stability

Why Choose Nerve Cells AI

Your Technology Partner

End-to-End
Development
Capabilities

Customer-
Centric Approach

Expertise Across
Modern Tech
Stack

Scalable & Secure
Solutions

Agile & Fast
Delivery

Company Snapshot

Founded

2023

Team

13+ engineers

Headquarters

Mohali, Punjab, India
